PROio

IO-Link Series - IP67

Supported applications:
PROFINET | EtherNet/IP | EtherCAT

Variant:
IO-Link Master
IO-Link Hub

Power supply:
M12 L-coded,
including daisy chain

IO-Link

IO-Link:
Class A Ports
Class B Ports on request
M12 A-coded

Advantages at a glance:

- **Cost saving:** Reduction in installation and configuration time, less cabling and fewer devices
- **Standardised interface & flexibility:** IO-Link as a manufacturer-independent standard enables easy integration and reduces device diversity
- **Diagnostics & maintenance:** Status monitoring and error messages directly from the field and automated device configuration during replacement.

PROio

IO-Link Master

Application	PROFINET	EtherNet/IP	EtherCAT
Article number	114130000	114130001	114130002

IO-Link Hub

Digital inputs	Digital outputs	Article number
16 x PNP	-	114130104
16 x NPN	-	114130105
16* x PNP	16* x PNP	114130110
16* x NPN	16* x NPN	114130111
8* x PNP	8* x PNP	114130112
8* x NPN	8* x NPN	114130113

PNP – Positive switching | NPN – Negativ switching | * Number configurable

Version: 06.2026/ Subject to change.
